DETAILED ACTION

1. Receipt is acknowledged of Applicant's Prior Art Statement, filed February 28, 2002.
2. Receipt is acknowledged of Applicant's Foreign Priority Papers, filed June 17, 2002.
3. Claims 1-38 are presented for examination.
4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-11, 19-29, and 37 drawn to a method and apparatus for removing material from a workpiece, classified in class 451, subclass 11.
 - II. Claims 12-18, 30-36, and 38 drawn to an apparatus and method for positioning a tool with respect to a workpiece to compensate for tool wear, classified in class 451, subclass 21.
5. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as initial positioning of a machine tool to compensate for wear of the tool, which is not necessary to the patentability of Group I. See MPEP § 806.05(d).
6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

Art Unit: 3723

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

9. Any inquiry concerning this communication should be directed to Robert Rose at telephone number (703) 308-1360.
